Education

Georgetown University, J.D., 1973
University of Wisconsin-Milwaukee, M.S., 1968
(Biology and Education)
Spring Hill College, A.B., 1966
(Biology and Philosophy)

Biography

Kemp Will heads the Firm's Environmental Group. He began his environmental practice over 30 years ago, when the environmental field was nascent, as an attorney with the U.S. Environmental Protection Agency in Washington D.C. and Denver. In addition to being one of the most experienced "Superfund" lawyers in the United States, he has represented hundreds of parties regarding contaminated properties:

- ▶ Sales, purchases and other contaminated property transactions;
- ▶ Mergers and acquisitions;
- ▶ Redevelopment, voluntary clean-up, brownfields;
- ▶ Permitting and regulatory compliance;
- ▶ Managing environmental litigation.

Mr. Will and the Firm have handled regulatory matters under all of the federal and state environmental laws and know the regulators well. Mr. Will has been involved in numerous environmental litigation cases. Mr. Will has served as mediator, arbitrator and expert witness in environmental disputes.

As added value to its clients, the Firm's environmental attorneys have technical degrees, enabling them to better interface with technical consultants and experts in providing clients with outstanding strategic environmental management.

Mr. Will was born in Centerville, Ohio, and has resided with his wife and 2 children in Colorado since 1975. He has served as board chairman on a number of voluntary boards.
